CAREER OBJECTIVE

Fourth-year BSIT student seeking an On-the-Job Training placement in software development. Experienced in building a full-stack web application with React, TypeScript, and Firebase, and eager to apply and grow my skills on real production projects under experienced developers.

EDUCATION

Tertiary Education:
Bachelor of Science in Information Technology
Dominican College of Tarlac, Tarlac, Philippines [Undergraduate | 2022 - Present]

- Relevant coursework: Web Development, Mobile Development, System Administration.

Secondary Education: (STEM)
Asian Pacific Christian School Inc. Tarlac, Philippines [2016 – 2022]

Primary Education:
Dominican College of Tarlac. Tarlac, Philippines [2010 – 2016]

CERTIFICATIONS

Introduction to Cybersecurity
Issuing Organization: Cisco Networking Academy
Instructor: Airon Prince Beltran
Date Completed: 29 Nov 2022

Partner: JavaScript Essentials 1 (JSE)
Issuing Organization: Cisco Networking Academy
Instructor: Raechel Ann Capiz
Date Completed: 27 Mar 2026

Full certificates available at my portfolio (see QR code below)

SKILLS

- **Languages:** TypeScript, JavaScript, HTML, CSS, PHP, Dart
- **Frontend:** React, Vite, Tailwind CSS, Progressive Web Apps (PWA), responsive design
- **Backend:** Node.js, Express, REST APIs, Firebase Cloud Functions
- **Database and Cloud:** Firebase Authentication, MySQL, Cloud Firestore, Cloudinary, Hostinger
- **Mobile:** Flutter, Dart
- **Tools:** Git/GitHub, VS Code, Figma
- **Soft Skills:** Flexible and adaptable, quick learner, problem solving, teamwork and collaboration, time management, attention to detail
- **Spoken Languages:** Filipino, English

CAPSTONE PROJECT

Study Buddy: A Progressive Web Application for Self-Regulated Learning for Students | Full-Stack Developer | 2026 Live: studybuddy.query-quest.site

- Built a full-stack, installable PWA for students with offline support, using React, TypeScript, Vite, and Tailwind CSS.

- Developed an AI feature that generates quizzes and flashcards from uploaded PDF, DOCX, and PPT files using the Groq API, with a job queue and rate limiting.
- Implemented secure authentication (email verification, Google login, password reset) with Firebase Auth and Resend, and designed the Firestore database.
- Built notes, Kanban to-do, schedule, and course file modules, and moved the backend from Cloud Functions to Express.js on Hostinger.

ACADEMIC PROJECTS

- **EduJournal** (PHP, 2025): Blog and CWS management website system for IT 54. github.com/Kakaiii21/EduJournal
- **Moodify** (Flutter, Dart, 2025): Mobile app with notes and weather features. github.com/Kakaiii21/moodify
- **Little Explorer** (Flutter, Dart, 2024): E-learning mobile app for kids. github.com/Kakaiii21/little-explorer
- **Mc Order** (Flutter, Dart, 2024): Kiosk-style food ordering mobile app. github.com/Kakaiii21/mc-order
